SocketSavers

Protect The Connectors On Your Valuable Serial Devices

Dual-purpose slimline socket savers extend the life by taking the abuse of frequently mated D-sub connectors used on expensive cables and ports. They are also panel mountable to pass cables through a bulkhead. The low profile design reduces leverage strain on overstressed computer ports and is shielded for electrically noisy environments. Universally designed for serial or parallel applications.

FEATURES

- Wired straight through; Extends the life of frequently mated D-sub connectors
- Fully shielded to protect against EMI (electromagnetic interference)
- Gold plated contacts provide reliable connections with repeated mating cycles
- UL grade 94V-0 connector insulator satisfies flammability requirements
- Reversible mounting nuts can be moved to other side as needed
- RoHS compliant

Order: 5-pack, SL-0795-864
20-pack, SL-0798-867
